ORBIS VASKI

offers everything you need

Technological development and the range of standards constantly place increasing demands for the cable installations. Different types of Cat cables are the backbone of the real estate cabling. Orbis Vaski product family offers everything you need to build reliable communication from one store.

Cables

High-quality twisted pair cable is easy to peel and connect. Clear labeling considers your work order. Orbis Vaski cable product family is made for the most demanding installations and is resistant to the North environment.

Patch cords

Orbis Vaski product family includes also patch cords which are compatible with Keystone standard. There are patch cords widths available from 0.5 meters to 30 meters.

Connectors

The quality differences in connectors will be detected directly in easy installation and reliability of the contacts. Orbis Vaski connector product family is compatible with Keystone standard and can be switched, as well as by the V-tool and if necessary by the 110-tool.

Mechanics

High-quality and compatible mechanics complete the installation. Orbis Vaski product family offers you the Keystone-compatible wall mounts, connector panels and other accessories.

Tools

A professional is known by his tools! With the help of Orbis Vaski tool you can assemble Keystone connectors 70% faster.

From the residential real estate to the industrial objects

Orbis Vaski product family includes a wide range of installation cables, from residential real estate Network (UTP) for the needs of demanding industrial applications (FTP). Protection is required in places with electromagnetic interference, such as eg. Data centers. CAT6 cables are operating in the frequency range of 250 MHz, while Cat6A is intended to networks, which require more efficiency for a frequency of 500Mhz. Orbis Vaski product family also offers cables for 10Gb data transfer needs.
